

Grandparent & Me / Tenderfoot Camp

Tenderfoot Camp completing 1st or 2nd grade

Camp is a real adventure for young, exploring minds. The days are full of energy, activity, discussion and new friends. A new sense of independence and confidence is one of the many by-products of the camp experience — even for the younger campers.

This camp event is specially designed to provide an exciting introduction to camp for the first-time camper. The event, three days and two nights, is long enough to become comfortable with camp life and short enough that campers rarely have difficulty being away from home for what may be their first time. The camper-counselor ratio in each cabin is low to assure personal "mom or dad-like" attention.

The camp schedule provides routine for the days so campers

quickly become comfortable in the camp setting. Arts and crafts, swimming, boating, nature hikes, cooperative games and other exciting activities expand these new campers' horizons.

Campers and parents are always invited to call or to send an e-mail note to Jeff Puhlmann-Becker, the Managing Director at Pilgrim Center, with questions — or simply to learn more about camp. Our goal is to make sure you are comfortable and excited to come to camp!

Grandparent & Me - Little House on the Prairie completing 1st - 5th grade

This exciting event invites grandmothers and granddaughters to explore pioneer life in the Midwest through the eyes of a young girl in the 1870s and 1880s. Laura Ingalls Wilder wrote the Little House books to preserve and pass on the stories of her family — and we'll do the same with this event! We'll read some of the stories and do some activities from the pioneer days including craft activities, games, making butter and baking bread — and more! We'll also engage grandmothers and granddaughters in sharing and recording stories from their own lives.

This event will bring the best of camp in 2010 — swimming, campfires, games, nature and craft activities, discussion, and sharing — together with a nostalgic look at growing up in Wisconsin in the pioneer days.
