

# Junior High

completing 7th or 8th grade

## Junior High Exploration Camp

Campers at this event will discover how they and their friends come together as individuals to form an important part of the church. By actively exploring special talents and gifts while canoeing, hiking, participating in games, campfires, and small group discussion, campers will learn more about themselves and each other. This will be a fun-filled week of developing awareness, building lasting friendships, and exploring the beautiful Northwoods of Wisconsin.

## Junior High Adventure Camp

Every day is a new adventure at Junior High Adventure Camp! Canoeing down the river, horseback riding through the woods, sailing across the open waters of Green Lake — the schedule provides a wide variety of experiences and opportunities. Activities planned on- and off-site encourage participants to use and appreciate the gifts (and recognize limitations!) they have been given. The camp doesn't focus on any one physical skill — it allows campers to try a variety of activities throughout the week.

Counselors and staff are encouraging and supportive. Perhaps most significantly, our counseling staff is chosen, in part, because they understand and can relate one-on-one to young people, so campers can expect to enjoy the entire camp experience! It is not uncommon to hear a Jr Hi camper comment how "cool" their counselor is — and parents to comment about how impressed they were with the integrity of the staff!

Along with the planned activities, unscheduled time is left for interaction with other campers and staff sharing common experiences, concerns and joys of life!
