

# Adult Retreats & Events

## Scrapbooking Retreat

Our lives are filled with blessings of family, friends, and experiences that bring back warm memories of days gone by. We have pictures all over our homes that remind us of some of these people and events, but so often these pictures are stuffed in a drawer or a box in the attic, and the memories that these pictures fondly evoke are all but forgotten.

Well, dig through all of those boxes and drawers and bring these snapshots of your life to the Scrapbooking Retreat! Whether you are an experienced “scrapbooker” or if this is your first time, this weekend is rich with fellowship, sharing, support, and “how to” information. If you are experienced bring your equipment and pictures for a new scrapbook — and bring past scrapbooks to share. If this is your first time we’ll have equipment here to get you started on your first book of memories.

This weekend will be a great opportunity to meet new people with similar interests, and to pour over the wonderful memories your pictures bring in the serene setting at Pilgrim Center.

Scrapbooking naturally lends itself to recalling memories, people, and the blessings of our lives. During our evening vespers we’ll reflect and share some of the blessings of our lives, and we’ll leave the weekend with yet another wonderful memory — and a new scrapbook!

## The Healthy Gourmet

Does the thought of cooking holiday-themed culinary delights excite you? Are you looking for ways to revitalize your traditional holiday fare? Then come indulge at the Healthy Gourmet weekend surrounded by the beauty and nature of Moon Beach.

You will enjoy many of God’s wonderful gifts while keeping focus on your heart, spirit, mind, and, of course, your appetite!

We plan to explore both traditional and non-traditional Thanksgiving and Christmas foods that are sure to entice your taste buds and delight your guests.

We even have room for folks that simply like to eat! While the gourmets work in the kitchen, “professional eaters” are invited to build their appetites by hiking, fishing, and/or taking in the splendor of the Northwoods. There might even be time for a nap!

Register now to rejuvenate yourself in time for the holiday season!

## Visual Arts in Worship taking it to the next level

**NEW** Many churches are already using, or considering the use, of a screen in worship. You know the challenges: how to make it even more interesting, where to find good resources, how to preach effectively with visual material, and how to find affordable equipment. You might be wondering how to find and use more visuals — art, photographs, video, and movie clips — to add interest and depth to worship and preaching themes in ways that are appropriate for your congregation. This workshop will help you do all this while providing sound educational and theological reflection on the why, what, who, when, how and how much of multimedia/multimodal worship.
